

FR Reproducible Research Network

<https://www.recherche-reproductible.fr>

About us

The **French Reproducibility Network** is an informal grassroots initiative bringing together scientists committed to the **study of factors favouring the reproducibility of research.**

The subject of reproducibility concerns **all scientific fields.**

The aim of the network is therefore to achieve broad and diversified disciplinary representation.

It currently has around **260 members** on its mailing list, from at least **30 different disciplines**, a fundamental element in the exchange of good interdisciplinary practice.

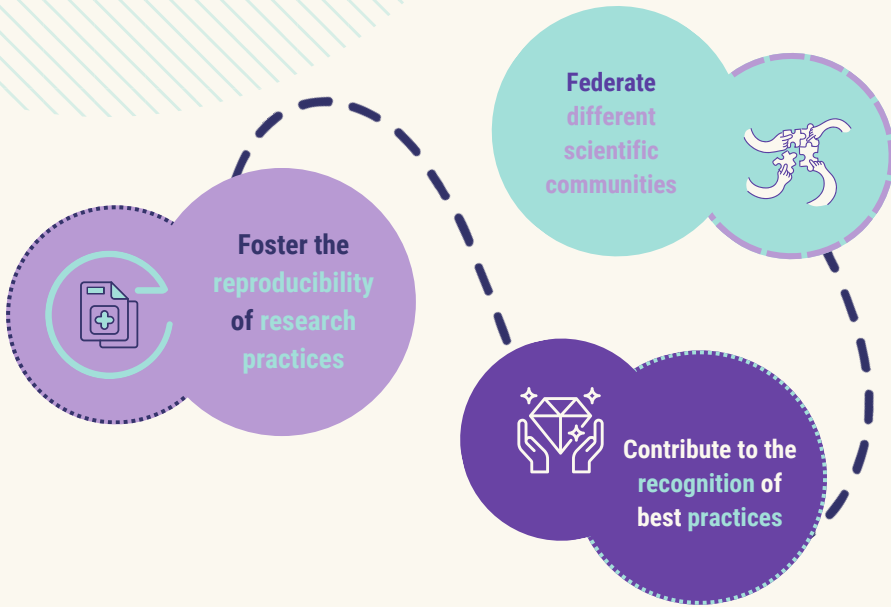

Activities

- **Webinars:** 6 to 8 a year on a variety of topics
- **Annual conferences:** Paris in 2023, Grenoble in 2024 and Lyon in 2025
- **Cooperation with international networks** of reproducible research
- Participation in **training initiatives**

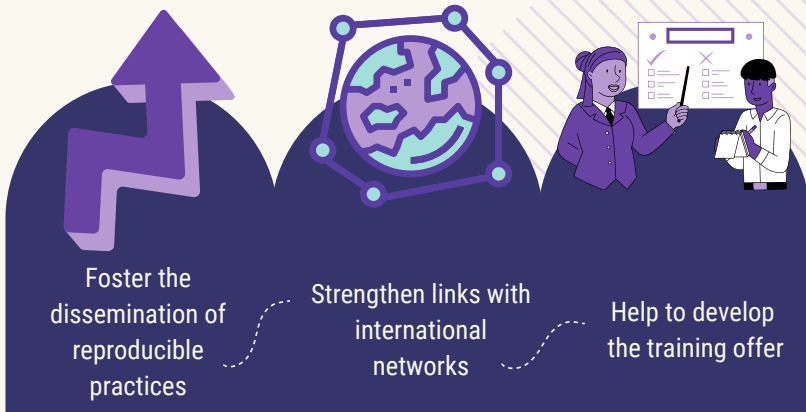

Network aims

Actions en cours

Structure

To fulfil these goals, the network has set up a structure with **3 types of components**:

- A steering Committee, which defines the priorities and coordinates the various actions,
- Cross-disciplinary colleges (scientific events, european relations, institutional relations).
- Work groups on specific topics (training, notebooks, software environment management).

How to get involved ?

To join the network, you can subscribe to the mailing list:

<https://groupes.renater.fr/sympa/info/recherche-reproductible>

or get in touch with us by mail:
